SEBO FELIX Premium

The stylish FELIX offers all the flexibility of a canister vacuum cleaner in an upright configuration! It has highly maneuverable, 180° steering ability, a convenient instant-use suction hose, an ultra-modern filtration system, and a detachable suction unit, with variable suction control, that becomes a hand-held vacuum. It includes the 12-inch-wide ET-1 power head, with four-level manual height adjustment, that cleans both carpets and hard floors and easily removes pet hair. In addition, its spinning brush roller can be shut off to clean delicate rugs and hard floors with straight suction. The power head features tool-free brush roller removal, plus a user warning light that illuminates when brush height is set too high for optimal cleaning or the bristles are worn, and when automatic shut off occurs due to brush roller obstructions. There are two on-board attachments and a hard-floor parquet brush. Amazingly, the FELIX can even morph into a hard-floor polisher by attaching SEBO's DISCO head.

FELIX Premium Rosso #9809AM

FELIX Premium Onyx #9807AM

Multi-surface Cleaning Capabilities – With a power head for carpets and a parquet brush for hard floors, the FELIX provides all the cleaning flexibility of a canister vacuum!

Power Head, Two On-board Tools, Plus a Parquet Brush – Along with its commercial-quality ET-1 power head, it also comes standard with a crevice tool, upholstery nozzle, and a hard-floor parquet brush.

Flat-to-the-floor, 6-inch Profile – The vacuum's low profile makes cleaning under furniture and beds easy!

Three-step, Hospital-grade Filtration – The FELIX features a pre-motor filter, a three-layer Ultra Bag, and an S-class, exhaust microfilter.

Large-capacity Filter Bag – The .92-gallon, three-layer Ultra Bag is convenient and economical because fewer bag changes are needed. And closing its hygiene cap prevents dust from escaping during bag removal or disposal.

Superb Steering Ability – A unique, 180° turning power head offers excellent maneuverability around and under furniture.

Protective, Rubber-coated Wheels – Its wheels protect all floor surfaces and provide smooth maneuverability.

Full Bag or Clog Indicator – When a full bag, a clog in the airflow pathway, or an excessively dirty microfilter is detected, an indicator window on the bag housing lid fills with orange color and an airflow bypass valve opens, to prevent overheating and motor damage from a lack of adequate airflow.

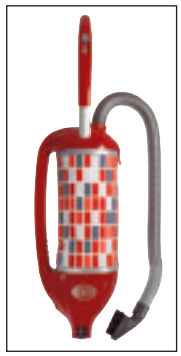

Variable Suction Control on Handle with Soft Start – The user can select the suction power needed, from curtains to carpet. And its gradual power-up extends motor life.

Three-level, Adjustable Handle – This feature provides compact storage, maneuverability when the suction unit is detached, and easy adjustment to user height requirements.

Instant-use Suction Hose – The integrated, instant-use suction hose is always ready! Just pull it out to clean corners, crevices or furniture. Two on-board tools and a range of attachments can be fitted to the hose, such as a 20-inch wand for cleaning hard-to-reach areas, or a nine-foot extension hose, which creates a total length of 15 feet, is perfect for cleaning stairs.

Detachable Suction Unit Creates a Hand-held, Portable Vacuum – By removing its power head, the FELIX instantly transforms from an upright floor vacuum into a handheld portable vacuum, ideal for cleaning stairs, upholstery, and car interiors. It can be easily carried using its alternative side handle or its shoulder-strap attachment.

Thirty-one-foot Cord with Rotating, Quick-release Hook – It is easy to quickly unwind the power cord by rotating the hook!

Easy Maintenance – The clog removal door and replaceable brush roller are easy to access on the power head.

Innovative Exhaust Filter – Behind the stylish surface hides an ultra-modern, S-class, exhaust microfilter that not only provides excellent filtration, but it also absorbs motor noise, resulting in extremely quiet operation.

Power Head with One-sided Edge Cleaning – The power head is 12 inches wide with a 10½-inch cleaning path.

Four-level, Manual Height Adjustment – The brush height can be adjusted up or down for optimal cleaning effectiveness.

Manual and Automatic Brush Shut Off – The FELIX can clean delicate rugs or hard floors with straight suction because the brush roller can be manually switched off, by pressing the green illuminated on/off button located on the power head. Also, the brush roller automatically shuts off when the suction hose is removed from its housing port, or when the handle is in its upright, locked position.

Brush Obstruction Light with Automatic Shut Off – If an obstruction jams the brush roller, a red warning light on the power head flashes and the brush roller stops spinning. This feature prevents the belt from breaking and protects the motor and carpet from damage.

Incorrect Height Setting or Worn Brush Light – When brush height is set too high for optimal cleaning, or when the brush roller should be replaced because of reaching maximum bristle wear, a red warning light on the power head remains illuminated during use. The light shuts off when the condition is corrected.

Easy Brush Removal and Cleaning – Cleaning hair or other debris from the brush roller, or replacing it when its bristles are worn, is quick and easy, and no tools are required! This feature ensures consistently effective brush agitation of the carpet pile.

Attachments

Included FELIX Premium

Upholstery Nozzle #1491GS

Crevice Tool #1092GS

Premium Parquet Brush #7200GS

Included FELIX 4 Kombi

Upholstery Nozzle #1491GS

Crevice Tool #1092GS

Premium Kombi Nozzle #7260GS

*The Felix 4 Kombi does not come with an ET-1 power head.

Optional Three-piece Kit

Dusting Brush with Horsehair Bristles* #1387GS

20" Extension Wand* #1084GS

12" Brush Roller #5010AM

12" Brush Roller (Soft Bristle) #5010GE

SEBO FRESH 1 Pkg. of 5 #0496AM

STANDARD FEATURES OF SEBO VACUUM CLEANERS

Designed and Manufactured in Germany – Legendary quality, reliability and performance make SEBO vacuums the first choice of cleaning professionals throughout the world.

World's Best Pet Vacuums – Because of superior power-head and brush-roller technology, SEBO vacuums are the world's best for pet hair removal!

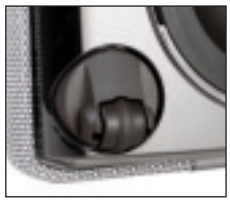

Excellent for Users With Allergies or Asthma – The British Allergy Foundation recommends SEBO filters.

Reliable, Commercial-grade Components – All SEBO vacuums are constructed with thick, reinforced, ABS plastic, aluminum and metal parts, steel axles and bearings, and high-end, quality motors. Therefore, SEBO users own reliable, long-lasting vacuum cleaners. Competing vacuums are made with thin, flimsy, inexpensive, plastic materials, none of which are reinforced, and typically have useful lifespans of one or two years.

Rubber Wheels and Soft Bumpers Protect Homes – Smooth-gliding, rubber wheels protect hard floors and provide exceptional maneuverability. In addition, the bumpers that surround the power heads and the soft AIRBELT bumpers that surround SEBO's canisters protect furniture, walls, and vacuum housings from incurring scuffs and scratches during use.

Advanced, Brush-Roller Technology – SEBO's brush rollers are uniquely designed to funnel hair and debris into the power head's airflow channel, which improves

Bagged vs. Bagless . . . Bags are Better! – Top-fill, three and four-layer Ultra Bags are an integral part of SEBO's filtration system because they hold virtually all the dirt captured by the vacuum, which improves the effectiveness and useful life of the microfilters. They also ensure continuously strong suction because dirt enters from the top, deposits at the bottom, accumulates upward, and air exits through the sides, which allows unimpeded airflow as they fill to capacity. And they can be tightly sealed with a hygiene cap when full, so no dust can escape into the air during bag removal and disposal.

In contrast, without bags to hold nearly all the captured dirt, the microfilters on bagless vacuums quickly clog from excessive dirt build-up and must be replaced often, or a loss of suction and cleaning effectiveness will occur. In addition, dust and other allergens become airborne when emptying bagless dirt containers. Lastly, bagless vacuum microfilters are expensive, usually costing more than a multi-year supply of SEBO filter bags.

Changing Bags is Easy and Clean – SEBO filter bags can be changed in just a few seconds, and a hygiene cap keeps dust sealed inside during removal and disposal.

Save Money! SEBO Vacuums Last for Years and Extend Carpet Life! – If properly maintained, SEBO vacuums save ordinary, residential users hundreds of dollars, by providing excellent performance for ten to fifteen years or more, and their deep-cleaning, power-brush technology extends the life of carpets. Typical vacuums perform poorly, even when new, and usually do not last beyond two years. So six or seven "disposable vacuums" must be purchased during the average life expectancy of just one SEBO machine.

Incredible Warranty Coverage – All SEBO models include a FREE ten-year warranty on the motor and non-wear parts, and five-years labour charges.
